Theme
Theme is the insight about human life that is revealed in a literary work. Both fictional and non-fictional works have themes, although they often express their themes differently.

In the center oval of the web is one theme of Baldwin’s book. In the attached ovals, write facts, ideas, or events that Baldwin uses to convey the theme.

FOLLOW-UP: Create two similar webs on your own paper: one for the theme that the force of love is the ultimate solution, and one for another theme of your choice.
